Benefits of Nourisil™ MD

5 x Silicone Intensity

Containing a unique blend of 5 silicones which are known as the gold standard for scar treatment.

Vitamin E

Studies have shown that, when added to silicone, Vitamin E improves the effectiveness of the treatment of scars.

For Sensitive Skin

Fragrance and preservative free and is suitable for use on all skin types, including sensitive skin and on children.

Medical Device

Nourisil™ MD is a non-invasive Class I medical device based on the European Directive 93/42/EEC, Annex IX Classification Criteria.

Airless Dispenser

Ready to use 30g airless dispenser. The self-sealing valve stops air from coming in and prevents the product drying out.

Quick Drying

Ready to use 30g airless dispenser. The self-sealing valve stops air from coming in and prevents the product drying out.
